Thanks everyone for all your hard work and many, many hours working on these documents and addressing the comments we've received. Please see attached for clean versions of both docs to share with mngt/legal review for one final edit.

The RtC still includes some highlighted comments that flag additions to address the additional comments Steve called out as well as the responses related to funding that still need to be updated.

I've also included the "messy" versions in case anyone is interested in seeing the evolution of this document or are curious how we addressed/or not some of the initial comments they made. I've also included my marked up version of Steve's comments in case he would like to see exactly where we integrated the comments he identified.

Allison
